

Directions to Mountain Thyme

First floor, Route de Mauvoisin 83b, 1947 Versegères

Driving from Verbier / Le Chable: *(This takes approx. 5 mins to drive from the roundabout, 20 mins from Verbier)*

From the roundabout at the bottom of the Verbier hill, turn right as if towards Martigny. At the Le Chable bridge, take the left turn over the bridge into Le Chable and follow the road around to the left. Keep going past Espace St Marc, and past the sign for Le Martinet. You will pass a large woodshop on your left, and shortly after, the Carroz Sanitaire building. (If you get to a second large woodyard, you have gone too far!) Turn left immediately after Carroz, before the yellow building, and follow this short road around to the right.

Our grey building is directly in front of you. We are up the metal stairs, and the second door along.

Parking:

There is ample parking around the back of our grey building, along the river. Please **do not** park in front of any of the garage doors to the side or front, or in front of the other grey building next door as these spaces are only for their customers.

On foot from Le Chable station: *(This takes approx. 40 mins to walk)*

Walk out of the car park keeping the river on your right, and walk past the small bridge and past the small amphitheatre (cow-fighting ring). Keep going, following the road around to the left as it goes uphill. At the cross-roads, turn right and go over the bridge and around to the woodyard. Turn left at the T-junction and walk towards Versegères. Just past Carroz Sanitaire (and before the yellow house) turn left and follow that small road round to the right. You will see our big grey building in front. Go up the metal staircase at the end, and we are the second door along.
